

# Certified Food Protection Manager Workshop

## What is a certified food protection manager?

A certified food protection manager (CFPM) is responsible for monitoring and managing all food establishment operations to ensure that the facility is operating in compliance with food establishment regulations.

A CFPM is knowledgeable about food safety practices and uses this knowledge to provide consumers with safe food, protect public health and prevent foodborne illnesses. Alaska regulations require food establishments to have at least one CFPM on staff.

## How do I become certified?

After you have completed this one-day training you must take and pass a CFPM certification exam before you work as a CFPM.

**All testing for this certification is computer-based.**

**Wednesday, July 9  
9 a.m. to 5 p.m.**

(with a ½-hour lunch break)

**Cost: \$200**

(includes class and certification)

**Taught by Marsha Munsell  
& Julie Cascio**

UAF Cooperative Extension Service

**Registration  
deadline:  
June 27**
